Foreword

YD/T 6743-2026 is a recommended industry standard of the People's Republic of China in the Telecom sector, approved and issued by the Ministry of Industry and Information Technology on 1 June 2026, with effect from 1 September 2026.

It is administered by the China Communications Standards Association.

Classification: ICS 33.030; CCS M21.

1 Scope

YD/T 6743-2026 sets out the evaluation index for the value of telecom data. It specifies the principles for building the index, the evaluation indicators themselves, and the methods used to calculate the indicators.

The document applies to telecom operators evaluating the value of data while it is being used in applications. It is used by operators and by their data management and data operation teams, and by consultants and assessment bodies supporting them. It is a voluntary standard, as shown by the /T in its code. It was approved and issued by the Ministry of Industry and Information Technology on 1 June 2026 and takes effect on 1 September 2026. It is a new standard.
