Foreword

YD/T 6756.3-2026 is a recommended industry standard of the People's Republic of China in the Telecom sector, approved and issued by the Ministry of Industry and Information Technology on 11 March 2026, with effect from 1 June 2026.

It is administered by the China Communications Standards Association.

Classification: ICS 33.040; CCS M36.

1 Scope

YD/T 6756.3-2026 is Part 3 of the technical requirements for the development and operation (DevOps) platform used in telecommunication operation and management. It specifies the technical requirements for the business templates and the test case description templates adopted in integrated development and operation. It applies to the artifact delivery and the test deployment of the DevOps platform.

The part is useful to telecommunication operators, platform developers, test engineers and system integrators who prepare and exchange delivery artifacts and test cases on a DevOps platform. It is a voluntary industry standard (YD/T) approved by the Ministry of Industry and Information Technology and prepared under the China Communications Standards Association. It was issued on 11 March 2026 and takes effect on 1 June 2026. It is a new standard and does not replace an earlier edition.
