Foreword

YD/T 6796.1-2026 is a recommended industry standard of the People's Republic of China in the Telecom sector, approved and issued by the Ministry of Industry and Information Technology on 15 April 2026, with effect from 1 August 2026.

It is administered by the China Communications Standards Association.

Classification: ICS 35.240; CCS L67.

1 Scope

YD/T 6796.1-2026 specifies the functional requirements, security requirements and management requirements for the enterprise-side system for managing non-profit internet information services. It is Part 1 of the series and gives the overall requirements. It guides licensed telecom businesses, namely internet access service providers, mini-program distribution platform enterprises, mobile application distribution platform enterprises and smart terminal manufacturers, in building such a management system.

System developers working for these enterprises can also use it as a basis for design. It is a voluntary industry standard (code with /T). It was approved by the Ministry of Industry and Information Technology, issued on 15 April 2026 and takes effect on 1 August 2026. It is a new standard.
