Foreword

YD/T 6797-2026 is a recommended industry standard of the People's Republic of China in the Telecom sector, approved and issued by the Ministry of Industry and Information Technology on 15 April 2026, with effect from 1 August 2026.

It is administered by the China Communications Standards Association.

Classification: ICS 33.050; CCS M30.

1 Scope

YD/T 6797-2026 specifies standardized requirements for telecommunication terminal equipment that shows the new type of network access license label electronically. The requirements cover storage, display and reading of the label, and the reporting of information. It applies to such equipment, including terminals that display the label on the device itself and terminals that display it through a management end. Consumers and third-party bodies may refer to it when reading the label.

Terminal manufacturers, management platform developers and test bodies can use it. It is a voluntary industry standard (code with /T). It was approved by the Ministry of Industry and Information Technology, issued on 15 April 2026 and takes effect on 1 August 2026. It is a new standard.
