Foreword

YD/T 6972-2026 is a recommended industry standard of the People's Republic of China in the Telecom sector, approved and issued by the Ministry of Industry and Information Technology on 1 June 2026, with effect from 1 September 2026.

It is administered by the China Communications Standards Association.

Classification: ICS 33.040; CCS M16.

1 Scope

The document specifies test methods for the content center of a content delivery network. For the content center, it gives test methods for the technical requirements on functions, interfaces and performance.

It applies to the testing and evaluation of content center equipment in content delivery network systems. Equipment manufacturers, content delivery network operators and test laboratories can use it to check a content center in the same way across products. The standard is voluntary. It was issued by the Ministry of Industry and Information Technology on 1 June 2026 and takes effect on 1 September 2026. It is a new standard.
