Foreword

YD/T 7068-2026 is a recommended industry standard of the People's Republic of China in the Telecom sector, approved and issued by the Ministry of Industry and Information Technology on 1 June 2026, with effect from 1 September 2026.

It is administered by the China Communications Standards Association.

Classification: ICS 33.040.50; CCS M42.

1 Scope

YD/T 7068-2026 specifies the terms and definitions, classification and product models, technical requirements, test methods, inspection rules, marking, transport and storage for manhole covers used in communication works, that is, the covers placed over inspection chambers of communication lines.

The document applies to the design, development, production and inspection of manhole cover products for communication. It is used by manufacturers of manhole covers, telecommunication operators and construction units that buy and install them, and inspection laboratories. It is a voluntary standard, as shown by the /T in its code. It was approved by the Ministry of Industry and Information Technology under the China Communications Standards Association, issued on 1 June 2026 and takes effect on 1 September 2026. It is a new standard.
