Foreword

YD/T 7071-2026 is a recommended industry standard of the People's Republic of China in the Telecom sector, approved and issued by the Ministry of Industry and Information Technology on 1 June 2026, with effect from 1 September 2026.

It is administered by the China Communications Standards Association.

Classification: ICS 33.030; CCS M21.

1 Scope

YD/T 7071-2026 specifies the network quality evaluation indicators and the evaluation methods that apply when a mobile terminal connects to the mobile internet and uses video streaming applications. It is one of the documents dealing with public applications on the mobile internet, here for the video playback type.

The document applies to industry authorities, telecommunication operators and third-party evaluation bodies when they evaluate the mobile internet network quality of public video streaming applications. It is a voluntary standard, as shown by the /T in its code. It was approved by the Ministry of Industry and Information Technology under the China Communications Standards Association, issued on 1 June 2026 and takes effect on 1 September 2026. It is a new standard.
