What this standard covers

This standard specifies the product classification and naming, requirements, test methods, inspection rules, packaging, transportation and storage of communication center tube filled outdoor optical cable. This standard is applicable to communication center tube filled outdoor optical cable for pipelines, direct burial, tunnel (channel), non-self-supporting overhead and other conventional laying methods. This standard does not apply to micro-cables and all-dry cables of air blowing.

Document data

Chinese classification (CCS): M33.

Estimated length of the Chinese original: 31,356 words.

Supersedes the earlier edition YD/T 769-2010.
