1 Foreword

YJ/T 28-2024 was issued by Ministry of Information Industry of the People's Republic of China on 29 February 2024 and has been in force since 1 June 2024.

The YJ/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 13 pages in English translation.

2 Scope Preview

This standard specifies the various technical requirements that should be met when audio and video equipment used at the scene of disasters and accidents collect and transmit information, including audio and video collection and transmission of scenes, audio and video collection equipment technology, and audio and video collection equipment carrying platform technology. This document applies to the selection and platform construction of audio and video information collection and transmission equipment at the scene of
