1 Foreword

YJ/T 29-2025 was issued by Ministry of Emergency Management on 17 April 2025 and has been in force since 18 July 2025.

The YJ/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 12 pages in English translation.

2 Scope Preview

This standard specifies the overall requirements for the organization and personnel allocation, infrastructure construction, equipment construction, information technology construction, system construction, and emergency plan construction of national-level natural disaster engineering emergency rescue teams. It provides classifications for infrastructure, equipment, and systems, and standardizes the basic requirements for the configuration of command and dispatch facilities, training and drill facilities, material and
