1 Foreword

YJ/T 4-2011 was issued by Ministry of Information Industry of the People's Republic of China on 27 December 2011 and has been in force since 1 March 2012.

The YJ/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the testing requirements, testing content, testing indicators and testing methods for internal combustion engine powered rescue tools. This standard is applicable to the periodic inspection of internal combustion engine power tools such as breakers, chain saws, and toothless saws for earthquake rescue.

YJ/T 4-2011 falls under ICS 91.120.25, in the field of construction materials and building.

This catalogue holds 6 other YJ/T standards in that field.

In this catalogue, YJ/T standards carry edition years from 2011 to 2025.

3 About this standard

Sector: Chinese Industry Standard (Recommended)

Issued by: Ministry of Information Industry of the People's Republic of China

English translation: about 15 pages (approximate)

4 Related standards

Standards on related subjects:

DB/T 60-2015 - Specification for the construction of seismic stations - Stations for rapid reporting of seismic intensity and earthquake early warning

DB/T 59-2015 - Technical requirements for seismic observation instruments joining the network - Seismic intensity meter

YJ/T 8-2016 - Training guide for earthquake search and rescue team members

YJ/T 7-2014 - Classification, code and label for earthquake rescue equipment

YJ/T 5-2013 - Diagram of standard system for earthquake emergency response and rescue trade

5 Classification and status

International classification (ICS): 91.120.25

Chinese Standard Classification (CCS): P 15

Prefix YJ/T: recommended standard.
