What this standard covers

This Standard specifies the centrifugal sedimentation method Determination of particle size distribution of the zeolite. This Standard applies to the determination of a centrifugal sedimentation particle size of the zeolite. Determination range 0.5 μ m ~ 5 μ m.

Document data

International classification (ICS): 77.120.10.

Chinese classification (CCS): H21.

Estimated length of the Chinese original: 4,427 words.
