What this standard covers

This Standard specifies the lead, copper, iron determination of the amount of palladium on carbon. This Standard applies to lead, copper, iron in determining the amount of palladium on carbon. Measurement range: 0.010% to 0.10%.

Document data

International classification (ICS): 77.120.99.

Chinese classification (CCS): H68.

Estimated length of the Chinese original: 6,690 words.
