What this standard covers

This standard specifies the classification and marking, technical requirements, test methods, inspection rules, marking, packaging, transportation, storage, and accompanying documents and order form contents for aluminum-copper alloy bars used in marine compressors. This document applies to round aluminum-copper alloy bars used in marine compressors, and also to high-strength, corrosion-resistant aluminum-copper alloy bars.

Document data

International classification (ICS): 77.150.30.

Chinese classification (CCS): H62.

Estimated length of the Chinese original: 10,169 words.

Supersedes the earlier edition YS/T 1101-2016.
