What this standard covers

This standard specifies the alumina plant plate falling film evaporator system heat balance measurement and the basis of calculation, measurement conditions, measurement items and determination calculation methods. This standard applies to sodium aluminate solution alumina plant plate falling film evaporator system heat balance measurement and calculation.

Document data

International classification (ICS): 77.180.

Chinese classification (CCS): H92.

Estimated length of the Chinese original: 36,386 words.
