7 Precision
8 Test report

1 Foreword

YS/T 1496-2021 was issued by Ministry of Industry and Information Technology on 2 December 2021.

The YS/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 8 pages in English translation.

2 Scope Preview

YS/T 1496-2021 is filed under Chinese Standard Classification H15, in the field of metallurgy.

This catalogue holds 1,555 other YS/T standards without an ICS number.

In this catalogue, YS/T standards carry edition years from 1985 to 2026.

3 About this standard

Sector: Nonferrous Metallurgy Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 8 pages (approximate)

Chinese original: about 12,132 characters

4 Related standards

Standards on related subjects:

GB/T 38783-2020 - Method of coating thickness determination for precious metal composites by scanning electron microscope

GB/T 38744-2020 - Methods for chemical analysis of synergistic catalysis elements in automotive exhaust catalysis?Determination of cerium, lanthanum, praseodymium, neodymium,barium and zirconium contents?Inductively coupled plasma atomic emission spectrometry

GB/T 23275-2009 - Methods for chemical analysis of ruthenium determination of lead, iron, nickel, aluminum, copper, silver, gold, platinum, palladium, rhodium, iridium and silicon in ruthenium powder by glow discharge mass spectrometry

YS/T 1495-2021 - High-purity rhodium chemical analysis method Determination of impurity element content Glow discharge mass spectrometry

YS/T 1494-2021 - High-purity gold chemical analysis method Determination of impurity element content Glow discharge mass spectrometry

YS/T 1493-2021 - High-purity platinum chemical analysis method Determination of impurity element content Glow discharge mass spectrometry

5 Classification and status

Chinese Standard Classification (CCS): H 15

Prefix YS/T: recommended standard.
