CCS H 15

YS

**NONFERROUS METALS INDUSTRY STANDARD OF THE
PEOPLE'S REPUBLIC OF CHINA**

YS/T 1585.5-2025

**Methods for chemical analysis of silver-tungsten alloy - Part 5:
Determination of oxygen and nitrogen contents - Inert gas
fusion-infrared absorption and thermal conductivity method
(English Translation)**

Issued on: August 19, 2025

Implemented on: March 1, 2026

Issued by: Ministry of Industry and Information Technology

What this standard covers

This standard specifies the determination methods for oxygen and nitrogen content in silver-tungsten alloys using the inert gas melting-infrared absorption method and the thermal conductivity method. This standard applies to the determination of oxygen and nitrogen content in silver-tungsten alloys.

Document data

International classification (ICS): 77.120.99.

Chinese classification (CCS): H15.

Estimated length of the Chinese original: 11,194 words.
