What this standard covers

This standard specifies the general principles, evaluation requirements, evaluation procedures and evaluation reports for the evaluation of green factories in the deformed aluminum and aluminum alloy tubes, bars and profiles industries. This standard applies to the evaluation of green factories in the deformed aluminum and aluminum alloy tubes, bars and profiles industries. This standard does not apply to the evaluation of green factories in the strip-type, cast-type insulation profiles and surface-treated deformed aluminum and aluminum alloy tubes, bars and profiles industries.

Document data

International classification (ICS): 77.120.10.

Chinese classification (CCS): H01.

Estimated length of the Chinese original: 24,280 words.
