### What this standard covers

This standard specifies the product classification, technical requirements, test methods, inspection rules, marking, packaging, storage and transportation, accompanying documents, and order form contents for molybdenum alloy sputtering targets. This document applies to plate-shaped sputtering targets produced from molybdenum alloy billets prepared by powder metallurgy through rolling and machining.

### Document data

International classification (ICS): 77.150.99.

Chinese classification (CCS): H63.

Estimated length of the Chinese original: 9,999 words.
