What this standard covers

This standard specifies the method for determining the chlorination corrosion performance of sintered metal porous materials. This document applies to the determination of the chlorination corrosion performance of sintered metal porous materials, including sintered metal powder porous materials, sintered metal fiber porous materials, and metal foam materials.

Document data

International classification (ICS): 77.16.

Chinese classification (CCS): H25.

Estimated length of the Chinese original: 7,798 words.
