Foreword

YS/T 1836-2026 is a recommended industry standard of the People's Republic of China in the Nonferrous Metals sector, approved and issued by the Ministry of Industry and Information Technology on 15 April 2026, with effect from 1 November 2026.

Classification: ICS 77.150.99; CCS H68.

1 Scope

YS/T 1836-2026 specifies the classification and designation, technical requirements, test methods, inspection rules, marking, packaging, transport, storage, accompanying documents and order form content for platinum and platinum alloy wire used in medical devices. It applies to platinum and platinum alloy wire for medical devices. The scope concerns the wire as a semi-finished material, from how it is classified and designated to how it is checked, packed, transported and accompanied by its paperwork.

The document is aimed at wire producers, medical device manufacturers who buy such wire as a component material, purchasers and testing laboratories. It is a voluntary standard (code with /T), issued by the Ministry of Industry and Information Technology on 15 April 2026 and effective from 1 November 2026. It is a new standard.
