Foreword

YS/T 1844-2026 is a recommended industry standard of the People's Republic of China in the Nonferrous Metals sector, approved and issued by the Ministry of Industry and Information Technology on 15 April 2026, with effect from 1 November 2026.

Classification: ICS 77.150.99; CCS H63.

1 Scope

YS/T 1844-2026 specifies the product classification, technical requirements, test methods, inspection rules, marking, packaging, transport, storage, accompanying documents and order form content for high-purity molybdenum powder. It applies to high-purity molybdenum powder prepared by the powder metallurgy route. The document treats the powder as a traded material and covers how it is classified, tested, inspected, marked, packed, transported and stored, together with its paperwork.

Powder producers, makers of molybdenum products who use the powder as raw material, purchasers and inspection laboratories can use it when agreeing orders and checking deliveries. It is a voluntary standard (code with /T), issued by the Ministry of Industry and Information Technology on 15 April 2026 and effective from 1 November 2026. It is a new standard.
