Foreword

YS/T 1867-2026 is a recommended industry standard of the People's Republic of China in the Nonferrous Metals sector, approved and issued by the Ministry of Industry and Information Technology on 15 April 2026, with effect from 1 November 2026.

Classification: ICS 77.150.99; CCS H63.

1 Scope

The document specifies the classification and marking, technical requirements, test methods, inspection rules, marking, packaging, transport, storage, accompanying documents and order content for tungsten alloy rods. It applies to tungsten alloy rods made by powder metallurgy, and to tungsten alloy rods made by powder metallurgy and then processed by forging, rolling, drawing and grinding.

It is used by producers of tungsten alloy rod, by manufacturers and traders who buy it for further processing, and by testing laboratories. It is a voluntary standard, as the /T in the code shows. It was approved by the Ministry of Industry and Information Technology, issued on 15 April 2026 and takes effect on 1 November 2026. It is a new standard.
