What this standard covers

This standard specifies the method of calculating cyanide leaching of gold-bearing material zinc replacement of gold recovery process theory. This standard applies to gold ore, flotation gold concentrate, or gold ore, flotation gold concentrate after roasting, biological oxidation and other processes after pretreatment cyanide leaching zinc replacement gold extraction process.

Document data

International classification (ICS): 73.060.99.

Chinese classification (CCS): H60.

Estimated length of the Chinese original: 6,617 words.
