What this standard covers

This standard specifies the method for determining the sulfur content in nickel concentrate.
This document applies to the determination of sulfur content in nickel concentrate with a fluorine content of less than 0.50%, with a determination range of 10.00% to 40.00%.

Document data

International classification (ICS): 77.040.30.

Chinese classification (CCS): H13.

Estimated length of the Chinese original: 12,111 words.
