What this standard covers

This standard specifies the method for determination of copper content in cobalt concentrate. This standard is applicable to the determination of copper content in cobalt concentrate. The measurement range of method 1 is 0.10% ~ 3.50%; the measurement range of method 2 is > 3.50% ~ 35.00%.

Document data

International classification (ICS): 77.120.40.

Chinese classification (CCS): H13.

Estimated length of the Chinese original: 16,149 words.
