### What this standard covers

This standard specifies the cryolite closed type molten salt electrolysis of alumina point feeders middle Omo Omo five points and six aluminum reduction cell anodes into electrical energy balance test methods and calculation methods. This standard applies to cryolite closed type molten salt electrolysis of alumina point feeders middle Omo Omo five o'clock and six o'clock aluminum reduction cell anodes into electrical energy balance test and calculation.

### Document data

International classification (ICS): 77.180.

Chinese classification (CCS): H92.

Estimated length of the Chinese original: 24,268 words.
