1 Foreword

YS/T 5040-2024 was issued by Ministry of Industry and Information Technology on 5 July 2024.

The YS/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the specific requirements for the basic data required for the preparation of the feasibility study report for non-ferrous metal mining, including the format, catalog, content, depth and accuracy requirements for the preparation of the feasibility study report.

YS/T 5040-2024 falls under ICS 73.020, in the field of mining and minerals.

This catalogue holds 140 other YS/T standards in that field.

In this catalogue, YS/T standards carry edition years from 1985 to 2026.

3 About this standard

Sector: Nonferrous Metallurgy Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

4 Related standards

Standards on related subjects:

GB 51011-2014 - Code for construction and acceptance of coal mine preparation equipment installation engineering

MT/T 593.5-2011 - Artificial frozen soil physics mechanics performance test. Part 5: Artificial frozen soil tri-axial shear test method

SH/T 3537-2009 - Technical specification for construction of vertical cylindrical low temperature storage tank

YS/T 5042-2024 - Technical standards for geological environment management engineering of nonferrous metal mine slopes

5 Classification and status

International classification (ICS): 73.020

Chinese Standard Classification (CCS): P 70

Prefix YS/T: recommended standard.
