What this standard covers

This standard specifies the method for determining the fluoride content in sodium fluoride using distillation-thorium nitrate titration. This standard is applicable to the determination of fluoride content in sodium fluoride.

Document data

International classification (ICS): 77.100.10.

Chinese classification (CCS): H30.

Estimated length of the Chinese original: 10,173 words.

Supersedes the earlier edition YS/T 535.2-2009.
