1 Foreword

YS/T 5432-2022 was issued by Ministry of Industry and Information Technology on 8 April 2022 and has been in force since 1 October 2022.

The YS/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the framework system and evaluation provisions for green construction evaluation of non-ferrous metal industrial construction projects. Mainly from 6 chapters: evaluation indicators of land saving and land resource protection, evaluation indicators of energy saving and energy utilization, evaluation indicators of water saving and water resources utilization, evaluation indicators of material saving and material resource utilization, environmental protection evaluation indicators and occupational health and safety evaluation indicators. stipulated. Each chapter is divided into control items, scoring items and preference items for evaluation respectively. This standard is applicable to the green construction evaluation of new construction, expansion and reconstruction of non-ferrous metal industrial construction projects.

YS/T 5432-2022 carries no ICS number and no Chinese Standard Classification code.
