What this standard covers

This standard specifies the determination method of aluminum, sodium, iron, zinc, phosphorus, calcium and lithium content in aluminum fluoride. This standard is applicable to the determination of aluminum, sodium, iron, zinc, phosphorus, calcium and lithium content in aluminum fluoride.

Document data

International classification (ICS): 71.100.10.

Chinese classification (CCS): H30.

Estimated length of the Chinese original: 11,134 words.
