What this standard covers

This standard specifies the ruthenium-based thick film resistor paste the requirements, test methods, inspection rules and signs, packaging, transport, storage and order form content. This standard applies to thick-film hybrid integrated circuits, resistor networks with a ruthenium-based thick film resistor paste (hereinafter referred to as ruthenium resistor paste).

Document data

International classification (ICS): 77.120.99.

Chinese classification (CCS): H68.

Estimated length of the Chinese original: 10,176 words.
