### What this standard covers

This standard specifies the graphitized cathode products graphitization degree (G value) method. This standard applies to products graphitized cathode graphitization degree (G value) was measured. Measuring range: 70. 0% YS/T 733-2010 | Determination of the graphitization degree of the graphitized cathode used for aluminium production

### Document data

International classification (ICS): 71.100.10.

Chinese classification (CCS): Q52.

Estimated length of the Chinese original: 6,665 words.
