### What this standard covers

This standard specifies the product grade, technical requirements, test methods, inspection rules, marking, packaging, transportation, storage, and accompanying documents and order form contents for high-purity copper ingots. This standard is applicable to high-purity copper ingots required for manufacturing sputtering targets for semiconductors, display devices, etc.

### Document data

International classification (ICS): 77.150.30.

Chinese classification (CCS): H62.

Estimated length of the Chinese original: 8,868 words.

Supersedes the earlier edition YS/T 919-2013.
