What this standard covers

This standard specifies the product classification, technical requirements, test methods, inspection rules, marking, packaging, transportation, storage, and accompanying documents and order form contents for bismuth trioxide. This standard applies to bismuth trioxide produced from metallic bismuth using wet or pyrometallurgical processes, and is mainly used in pigments, coatings, catalysts, rubber compounding agents, pharmaceuticals, glass compounding agents, ceramic capacitors, piezoelectric ceramics, varistors, and inorganic synthesis.

Document data

International classification (ICS): 77.150.99.

Chinese classification (CCS): H62.

Supersedes the earlier edition YS/T 927-2013.
