**NONFERROUS METALS INDUSTRY STANDARD OF THE
PEOPLE'S REPUBLIC OF CHINA**

YS/T 949-2014

Terminology of nonferrous metal scraps

废旧有色金属术语定义

(English Translation)

Issued on: July 9, 2014

Implemented on: November 1, 2014

Issued by: Ministry of Industry and Information Technology

Table of Contents

Introduction

1 Scope

2 Normative references

3 General terms

3.1 Basic Concepts

3.2 Category 1 term

3.3 Other terms

4 4 scrap non-ferrous metals

4.1 Copper and copper alloy scrap

4.2 Aluminum and aluminum alloy scrap

Lead and lead alloy scrap 4.3

4.4 Zinc and zinc alloy scrap

4.5 6 scrap tin and tin alloys

4.6 Nickel and nickel alloy scrap

4.7 Cobalt and cobalt alloy scrap

4.8 Magnesium and magnesium alloy scrap

4.9 Carbide waste

Foreword

This standard was drafted in accordance with GB/T 1.1-2009 given rules.

This standard by the national non-ferrous metals Standardization Technical Committee (SAC/TC243) centralized.

This standard was drafted. High-tech Co., Ltd. Shenzhen Grammy, Geo Henan Mechanical and Electrical Equipment Co., Ltd., Henan Yuguang Gold Lead Co., Ltd, Wuhan Grammy Resource Recycling Co., Grammy (Wuhan) City Industrial Park Development Co., Ltd. mineral cycle.

1 Scope

This standard specifies the terms and definitions of non-ferrous metal scrap.

This standard applies to scrap non-ferrous metal scrap, waste recycling, processing and trade processes.

2 Normative references

The following documents for the application of this document is essential. For dated references, only the dated version suitable for use herein Member. For undated references, the latest edition (including any amendments) applies to this document.

GB/T 20926-2007 magnesium and magnesium alloy scrap GB/T 25955-2010 tantalum and tantalum alloys scrap SN/T 1791.9-2006 imported wastes as raw materials inspection and quarantine procedures - Part 9. non-ferrous metal scrap

3.1 Basic Concepts

3.1.1

Non-ferrous metal scrap nonferrousmetalscraps for non-ferrous metal-containing non-ferrous metals industry in the production process arising during use or consumption and waste recycling Re-use of raw materials.

3.1.2

Non-ferrous metal scrap, waste nonferrousmetalwasteandscraps Scrapped or loss of use value and non-ferrous metals or alloys scrap and waste products generated in the production process, including Irreparable waste generated in the production process. Waste and scrap the old into the new.

3.1.3

New waste newscraps

Scrap generated in the production process and manufacturing non-ferrous metal products, scrap, including irreparable waste generated in the production process.

3.1.4

Old scrap oldscraps

Already used non-ferrous metal scrap, waste.

3.2 Classification term

3.2.1

Non-ferrous metal scrap and waste classification classificationfor nonferrousmetalscrapsandwaste by species, physical characteristics, chemical composition and inclusion rate may be non-ferrous metal scrap, waste is divided into classes, groups, class and so on.

3.2.2

High-quality scrap and waste highqualitynonferrousmetalscrapsandwaste After pretreated and non-ferrous scrap grades, and component-level classification of waste.
