What this standard covers

This standard specifies the method for determining the components in the tail gas of silicon polycrystalline reduction furnace by gas chromatography. This standard is applicable to the determination of the components of the tail gas of silicon polycrystalline reduction furnace produced by trichlorosilane method.

Document data

International classification (ICS): 77.04.

Chinese classification (CCS): H17.

Estimated length of the Chinese original: 992 words.

Supersedes the earlier edition YS/T 983-2014.
