1 Foreword

YZ/T 0188-2022 was issued by State Post Bureau on 17 November 2022 and has been in force since 1 February 2023.

The YZ/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the system architecture, vehicle terminal technical requirements, intelligent video surveillance platform requirements for delivery companies, postal management intelligent video surveillance platform requirements, interface requirements, safety requirements and test methods for the intelligent video surveillance system for delivery vehicles in the postal industry. This standard applies to the new construction, reconstruction and expansion of intelligent video surveillance systems for delivery vehicles

in the postal industry.

YZ/T 0188-2022 falls under ICS 35.240.99, in the field of information technology.

This catalogue holds 5 other YZ/T standards in that field.

In this catalogue, YZ/T standards carry edition years from 2000 to 2024.

3 About this standard

Sector: Postal Services Industry Standard (Recommended)

Issued by: State Post Bureau

English translation: about 15 pages (approximate)

4 Related standards

Standards on related subjects:

GB/T 41301-2022 - Management requirements of IPv6 address in intelligent manufacturing environments

YZ/T 0173-2020 - Specifications for regulatory data access of intelligent mail and parcel locker and intelligent self-express service machine

YD/T 1548.1-2007 - 2GHz WCDMA digital cellular mobile communication network terminal equipment testing method (second stage) - Part 1: Basic functions, operations and performance testing

YZ/T 0187-2022 - Interface requirements for postal industry intelligent video surveillance system

YZ/T 0186-2022 - Technical requirements for postal industry intelligent video surveillance system acquisition equipment

5 Classification and status

International classification (ICS): 35.240.99

Chinese Standard Classification (CCS): M 16

Prefix YZ/T: recommended standard.
